

Guide to Filing Comments, Letters, Etc. with respect to the SpaceX Gen2 Application in the FCC's International Bureau Filing System (IBFS)

Overview

Comments, petitions, letters, and other filings with respect to SpaceX's Gen2 satellite application must be filed through the FCC's International Bureau Filing System (IBFS).

Please note that the IBFS website can be a bit temperamental (e.g., it may be necessary to click a link more than once for it to open properly, the IBFS filing feature may time out after a relatively short period of time). That said, use of the website is straightforward and any errors are normally curable by simply repeating the relevant step(s) in the process.

Step 1: Go to the IBFS website

Non-docketed Pleadings
If your pleading refers to a docketed or rulemaking proceeding, please use the [FCC's Electronic Comments Filing System](#).
